Sunil Pradhan

Full Stack Developer (MERN Stack) | AI/ML Beginner

7609906034 | sunilpradhanpersonal@gmail.com | Nimapada, Puri, Odisha, India | LinkedIn | GitHub | Portfolio

EDUCATION

GEC Autonomous Collage 2024 - 2026

Bachelor in technology in Computer Science • GPA: 8.8/10

Relevant coursework includes Data Structures & Algorithms, DBMS, Operating Systems, and basics of AI/ML. Skilled in full-stack development using the MERN stack, with experience building responsive and scalable web applications and integrating basic AI features. Beginner in AI/ML, exploring supervised learning and practical implementations.

Regional H.S School, Nimapada 2022 - 2024

12th in Science • GPA: 81/100

Completed higher secondary education in Science with subjects including Physics, Chemistry, Mathematics, and Information Technology. Built a strong foundation in analytical thinking and problem-solving skills.

PROJECTS

Collage Event Management Website [Link] December 2025 - January 2026

Sole Developer (Full Stack)

- Designed and developed a comprehensive MERN stack platform for academic and social event management, featuring role-based access control for administrators (teachers) and participants (students).
- Engineered a secure authentication flow utilizing JWTs, HTTP-only cookies, bcrypt, and email-based OTP verification via Nodemailer for registration and password recovery.
- Integrated an intelligent AI Chatbot using the OpenAI API and Pinecone vector database to provide instant, context-aware assistance for event-related user queries(RAG Chatbot).
- Built dynamic frontend interfaces using React and Redux Toolkit, implementing protected routing and seamless global state management for a smooth user experience.
- Developed scalable backend REST APIs to handle event creation, participant enrollments, real-time announcements, and mass email broadcasting.

SKILLS

Language :- C, Java, Python, JavaScript
Frontend :- React.js, HTML, CSS
Backend :- Node.js, Express.js
Database :- MySql, MongoDB
AI/ML (Beginner) :- Supervised Learning, Basic Models, AI Integration in Web Apps
